

YEAR OF 2020

The reality of Covid-19 hit us March 12th when Brad came down with the virus in NYC. Two days later, Ian followed suit. They both survived but convinced us to take all of the precautions seriously. We have a nice retirement and were able to get groceries placed in our car trunk from local stores. Mostly all else was delivered. We really cannot complain as we were so much better off than many. John sold his motorcycle and now jogs and uses his bicycle whenever he can. I have several regular zoom sessions and my writing group now shares online. Life goes on and we adapt.

Aaron nows teaches 9th and 10th math levels at Roseland Collegiate Prep and enjoys his new position even with remote teaching. Michael is in 6th grade at Lawrence Jones Middle School. After a lot of hard work and endurance, Michael achieved a black belt in Taekwondo. He is now training on a swim team. Rita continues at her job with Allianz which works out well as she can work from home. Rita, Aaron and Michael enjoy hiking and kayaking together.

Ian is Senior Marketing Manager at Intezer and works from home. Brad has many private clients that he trains and has maintained his income. He is also working on creating workout videos that meets the needs of individuals for a complete workout program.

Rita Aaron and Michael on a weekend hike
Brad with Covid beard and without!
